

## **Lorna Byrne – A Special Newsletter to my American friends**

October 24<sup>th</sup> 2011

I'm really looking forward very much to being back in the United States for the launch of the paperback of *Angels in my Hair* on November 1<sup>st</sup>. The great team at Random House/ Crown have done a brilliant job on a new cover for the paperback which I'm very happy with. You can see it here [http://www.amazon.com/Angels-My-Hair-Lorna-Byrne/dp/0385528973/ref=tmm\\_pap\\_title\\_0](http://www.amazon.com/Angels-My-Hair-Lorna-Byrne/dp/0385528973/ref=tmm_pap_title_0) . I am of course also extremely happy that at \$14.00 this is much more affordable than the hard back – I always worry about books costing too much!

I have written two new chapters for this American paperback edition. The first new chapter is a response to the many people who have asked me how they can get closer to their guardian angel. It contains *12 ways to connect with your guardian angel*.

The other new chapter is about *Angels and America* - about the angels I have seen when visiting America and also about what the angels have told me about America's very special role in the spiritual evolution of mankind. I don't want to tell you all that is in the chapter.

Instead but let me tell you something that I have never spoken of or written before. There is a special type of angel that I have only ever seen in America. I haven't seen very many of them – but those that I have seen were in America. I saw one of these angels on a street in the financial district in New York, and another in a park by the Golden Gate Bridge in San Francisco.

By just looking at these angels - I know these particular angels are special. But I don't understand fully yet what is so special about them or what their role is.

These angels look different to others - I am attracted to these angels' faces. When I or you see a person we focus on their face. But normally when I see an angel however my focus is on the entire angel. That's not the case with this angel - it's as if its face stands out more than other angels faces do. These angels are extremely beautiful and extremely bright. They reflect a pastel colour and this colour seems to change from one angel to another.

What is really different about these angels though is the energy or vibrancy that is coming from them. I'm not a hundred percent sure but it seems to touch people and to fill the environment surrounding them. I see this vibrant energy physically and it's as if it can reach out for a block of more. A couple of times I have seen the energy and known that one of these special angels are somewhere around somewhere even though I couldn't see it.

I don't understand what these angels are doing, or what their role is because I haven't yet been allowed to talk with them yet. I will have to see whether they will talk to me on this visit to America or whether Angel Michael will tell me more about them.

Remember seeing angels is part of my everyday life but I am learning too – writing Angels in my Hair hasn't stopped my learning , in fact its speeded it up as people ask me lots of questions.

I would love if I have learned some more about these angels by the time I do my speaking events in **NEW YORK** (Manhattan) at the Learning Annex on Monday November 7<sup>th</sup> [http://www.learningannex.com/live\\_classes/306](http://www.learningannex.com/live_classes/306)

And in **WILMINGTON, DELAWARE** on Wednesday November 16<sup>th</sup> <http://lornabyrnedelaware.tix.com/Event.asp?Event=409029>

If I do learn more about these angels , I'll tell you what I have learnt at the events – that's if I am allowed to, as I amn't always allowed to tell what I see or am told.

The format of the events is that firstly, I will be interviewed (in New York By Sam Del Canto and in Wilmington by Ted Yacucci – both of whom are fascinated by angels and I look forward to brilliant questions), then you in the audience will be able to ask some questions and finally at the end I will get to “meet and greet” everyone there and give you a hug or a blessing if you would like one. (You can get an idea of what these events are like by looking at this short video of me in Finland <http://www.youtube.com/watch?v=7ruFSTsByKg> )

I would love to see you at these events. Please come if they are near you. If you have friends or family in those areas – please pass this newsletter on to them.

I look forward to a wonderful visit to the US and, hopefully, in 2012, God and the angels will allow me to visit more parts of it.

Blessings to you, your family and friends.

Lorna
